

Mockup Review Notes
Nov 14, 2018

Creative Director: Jenny K.
Designer: Brandon W.

- Highlight some words in the text, that may be relevant
 - Potentially divide the sections into smaller sub sections?
- Have music player (just for aesthetics if not possible) somewhere on the page, maybe at the top that is locked when you scroll
- Include footer for the sources
- Also link names at the footer to our portfolios
- Have more images that are coming out from the side, adding to glitch effect and have some light blues for emphasis/visual effects
- Add more photos to the origin section (look within the text to find some specific imagery)
- Put vaporwave in the header by the navigation so that when scrolling, can still see that the website is about vaporwave
- Clarify that the navigation section on the left will be still/locked when scrolling through the one page website.
